

TOO HOT NOT TO HANDLE

ACTIVITY 2

Impacts of Global Warming

Before viewing the film:

1. Review the chart below.
2. On another piece of paper, brainstorm how the things in column one might be affected by Global Warming and how these changes will affect us.

Make your best guesses based on the following information:

Global warming means that the average global temperature of our planet is rising. Temperatures will continue to rise if we do not take the necessary steps to cut back on greenhouse gas emissions.

During and after the film:

Fill in the chart with information you learn from *Too Hot Not to Handle*.

	HOW WILL THESE THINGS BE AFFECTED BY GLOBAL WARMING?	HOW WILL THESE CHANGES AFFECT US?
HEAT WAVES		
SNOWPACK		
WEATHER		
SEASONS		

ANIMALS		
MOSQUITOES		
WEEDS		
GLACIERS		
HURRICANES
